

TERMS OF BUSINESS

Unknown correspondents are kindly requested to remit with order, or give references.

Payments may be made by crossed cheque, bank draft, postal note or money order, payable at TYABB. Exchange must be added to cheques: 6d. Victorian, 1/- Interstate.

Always write name clearly and also give the name of the nearest railway station, and any further advice that is necessary to assure that the parcels will get quickly to your hands.

The plants sent out from the Nursery are genuinely believed to be what they are labelled and described, and every care is taken to avoid any mistakes. However, mistakes are possible in spite of every precaution taken. Should a mistake occur, I undertake to replace the plant with the proper variety, or refund the original cost when purchased, and this must be understood as the full extent of my liability.

All plants leave the Nursery in a fresh and healthy condition, and any complaints to the contrary must be lodged within 24 hours of taking delivery from the Nursery. When plants are despatched from the Nursery my responsibility ceases, as I cannot possibly have any control over them afterwards.

These terms must be agreed to by the purchaser, who must accept same as conditions of sale.

This price list cancels all previous lists. May, 1940.

FOREWORD

WHEN ORDERING, it is advisable to add extra names, in case varieties ordered are sold out.

Unless it is stated not to do so, I substitute for varieties that are out of stock, and in their place I give good reliable Roses that I consider will give every satisfaction.

When selection is left with me, I give the best kinds from the stock available at the time the order is received.

MANY VARIETIES OF GOOD ROSES—

There are many varieties of good Roses that cannot be known generally. Nurserymen have the advantage, in most instances, of at least a nodding acquaintance of nearly every Rose of merit that is sent out. They grew stock of these Roses, and very often varieties that are substituted are extremely satisfying to the planter, as they are superior Roses.

Prices for 1940.

It is my endeavour to give as much attention to the growing of good plants, with such care in the packing and despatch as will assure good results to follow. That is my part, and the utmost I can do. My prices are governed by this policy.

There are no better plants offered for sale and I give value.

If a Rose is Worth Planting it is also Worth Good Treatment.

Nourish your Freshly Planted Roses.

Mix with the soil in which you are going to place your Rose tree some kind of plant food other than that which is natural to the soil. It is quite safe to assume that in 95 cases out of 100 the soil in which a Rose tree is to be planted is not rich enough in plant nutriment to at all do justice to the subject to be set therein.

It is essential, for the assurance of sturdy, healthy growth, to mix some manure with the soil. Safe manures are as follow: Cow manure, well decayed stable manure, blood and bone fertilizer. In conjunction with these manures, a slight dusting of superphosphate can sometimes be used to advantage. Sulphate of potash, used sparingly, is also a very useful constituent in the soil to promote health and vigour in the plant, and has a strong tendency to reduce mildew attacks.

Some soils are greatly benefited by a good dressing of lime, but due care must be taken in not spreading it at the same time with other manures, as it destroys in part the right chemical action. Three or four weeks should elapse, either before or after other manures are spread, before or after giving a lime dressing; and another point well worth taking note of is that lime should always be spread on the surface of the soil where it works down in its own action.

Manures, if possible, could be mixed with the soil two or three weeks before planting time. Mix the manures with the soil that will come in direct contact with the roots. This allows young roots to derive the benefit of the nourishment immediately. When manures such as the above are thoroughly mixed with the soil, it does not do any injury to the young roots, and, in fact, is just that which is required.

Yes, it is safe to mix the manure with the soil and plant your Rose tree at the same time. Do the mixing thoroughly. Often—too often—I have seen indifferent results from freshly planted Roses, either because the ground has not been manured at all, or the manure has been placed too far away, or, again, buried too deep. The plant, having poor soil in direct contact with the roots, has not been able to thrive well enough to send the roots the distance to reach the plant food. In the case of no manure in poor soil it is, sadly, plant starvation.

Any doubts about the foregoing remarks will be quickly dispelled by a little experimenting.

ABBREVIATIONS USED FOR CLASSIFICATION OF ROSES.

(H.P.) Hybrid Perpetual, (H.T.) Hybrid Tea, (T.) Tea, (Per.) Pernetiana, (Wich.) Wichuraiana.

(F.) at the end of description of variety indicates that the said Rose is fragrant; (E.F.) exceptional fragrance.

Bush or Dwarf Roses

This form of Rose is coming greatly into favour. There are a great many varieties that do better on this class of stock than they will on the standard, and they produce abundance of flowers.

My plants are propagated from selected buds, and worked only on approved stocks. Again this season I am able to state that my plants are particularly well grown, with a splendid root system.

Bush or Dwarf Roses, except where otherwise priced, are 1/6 each; 15/- per dozen.

Freight, packing and despatch from Tyabb Railway Station, or posted at Tyabb P.O. to any P.O. or Railway Station in Victoria, excepting in the case of posting where the postage is higher than these rates, the extra cost of which must be allowed for, are as follow:—Single plant, 1/-; two to four plants, 1/3; five to eight plants, 1/6; nine to twelve plants, 1/9.

Varieties of Bush or Dwarf.

Brief descriptions.

ARGOSY (H.T.) (Alister Clark, 1938).—A fuchsia pink, nicely formed Rose, with free blooming habit and a good grower. 1/9 each.

ALBERT MAUMENE (Per.).—Nice decorative, of golden coppery shadings.

AMERICA (H.T.).—Pink; nicely shaded Rose, with pleasing growth. (F.)

ANGELE PERNET (Per.).—Orange pink and apricot; decorative variety that is very attractive. (F.)

AUTUMN (H.T.).—Rich autumn tints of burnt orange; most pleasing. (F.)

BARCELONA (H.T.).—Carmine crimson with velvety shadings. (F.)

BEATRICE MCGREGOR (H.T.) (Alister Clark, 1938).—Dark red; well formed Rose, blooms freely and is sweetly scented. 1/9 each.

BAXTER BEAUTY (Hyb. Gig.).—A distinct sport of Lorraine Lee, which originated at "Westerfield," Baxter, Victoria. Colour varying from light yellow to sulphur and tinged with pink. Outside of petals often splashed with salmon pink. It has all the free flowering qualities of Lorraine Lee, blooming right into the winter. Price 2/6 each, 24/- per doz.

BETTER TIMES (H.T.).—Brilliant cerise; perfectly formed flowers borne on long, strong stems; a fine sport from Columbia. (F.)

BETTY UPRICHARD (H.T.).—Decorative; salmon pink and carmine. (F.)

BILLY BOILER (H.T.).—Dazzling red; free-flowering garden Rose, with healthy growth.

BRIARCLIFF (H.T.).—Sport from Columbia; clear rose pink. (F.)

CALEDONIA (H.T.).—White; well formed Rose; pleasing growth.

CAPT. F. S. HARVEY CANT (H.T.).—Salmon pink, suffused with yellow; large, nicely shaped bloom.

CARINE (H.T.).—Long pointed buds, opening orange carmine bluff and blush; blooms freely. (E.F.)

- CATHERINE KORDES** (H.T.).—Scarlet to crimson flowers of nice form, with sturdy, healthy foliage.
- CHATEAU DE CLOS VOUGEOT** (H.T.).—Decorative dark velvety crimson Rose. (E.F.)
- CHAS. P. KILHAM** (H.T.).—Brilliant orange orient red, fading to Lincoln red. Free flowering.
- CHAPLIN'S TRIUMPH** (H.T.).—Deep crimson, double and free-flowering. (F.)
- CHRISTOPHER STONE** (H.T.).—Fine large blooms of velvety bright crimson, with nice sturdy growth. (F.)
- COMTESSE VANDAL** (H.T.).—A splendid variety, with a long pointed bud of a mixture of copper and golden bronze, shading to buff, with inner petals of coral.
- COLUMBIA** (H.T.).—Deep clear pink on long stems. (F.)
- CONDESA DE SASTAGO** (Per.).—A most attractive combination of colours. Outside of petals is a deep golden, while the inside is a bright coppery red; growth is attractive and quite hardy.
- CRIMSON GLORY** (H.T.).—Vivid velvety crimson; flowers freely. (F.)
- CUBA** (Per.).—Brilliant cardinal red, semi-single; very attractive decorative variety. (F.)
- DAILY MAIL SCENTED** (H.T.).—Rich deep crimson; very free flowering variety. (F.)
- DAME EDITH HELEN** (H.T.).—Glowing pink; good form, large and full; growth is not always the most pleasing. (E.F.)
- DON BRADMAN** (H.T.).—Silvery rose, free-flowering; growth so far not particularly strong. It may do better when properly acclimatised. We certainly would like to see a good innings from it to live up to the fame of the Cricketer from whom it takes its name. 2/6 each.
- DIANA ALLAN** (H.T.) (Alister Clark).—Dwarf growing bush which produces blooms continuously. Colour rosy pink, shading to salmon pink with yellow base. 1/9 each.
- DOROTHY LEE** (H.T.).—Soft salmon pink, suffused with yellow; a most pleasing colouring; growth similar to Shot Silk.
- EDITH KRAUSE** (H.T.).—A large, beautiful white Rose, borne on long, strong stems; growth hardy and free.
- EFFEKT** (H.T.).—A decorative variety, with inside of petals carmine rose and on the outside light yellow.
- EDITOR McFARLAND** (H.T.).—Bright rose, shaded salmon and capucine red; growth vigorous and free flowering. (F.)
- E. G. HILL** (H.T.).—Dazzling scarlet; large, very full blooms. (F.)
- EDITOR STEWART** (H.T.) (Alister Clark, 1939).—A vigorous grower, producing an abundance of large, wavy petalled flowers of a pleasing shade of red. A garden Rose that will be very popular when fully known. 1/9 each.
- ELIZABETH OF YORK** (H.T.).—Free-flowering garden Rose of rich cerise pink.
- ELLA GUTHRIE** (H.T.) (Alister Clark).—Fine pink Rose, borne freely on long stems; continuously in flower.
- ELLI KNAB** (H.T.).—Beautiful variety; outside of petals rosy pink, with inner face of petal pale pink, heavily veined.
- EMMA WRIGHT** (H.T.).—Attractive bedding variety of orange colouring.
- ETOILE DE HOLLAND** (H.T.).—Brilliant deep red; free flowering; one of our best garden Roses. (E.F.)

- EVERT VAN DYK** (H.T.).—Large, full; clear carmine pink. (F.)
- FELBERG'S ROSA DRUSCHKI** (H.T.).—Bright pink, large well-formed blooms.
- FRAU KARL DRUSCHKI** (H.P.).—Snowy white; large; growth vigorous.
- FAIRLIE REDE** (H.T.) (Alister Clark).—Full, nicely shaped Rose; distinct shade of pink, carried on strong stems.
- FEU PERNET DUCHER** (H.T.).—Deep yellow double blooms of good shape; the outer petals often show markings of carmine, which gives a beautiful effect.
- FLORENCE L. IZZARD** (Per.).—Deep buttercup yellow. (F.)
- GAIETY** (H.T.).—Decorative, with attractive mixture of colourings of orange, vermilion, old rose and pink.
- GENERAL GALLIENI** (T.).—Decorative; deep red centre, shaded yellow; distinct.
- GENERAL McARTHUR** (H.T.).—Bright scarlet crimson; free-flowering variety. (F.)
- GEORGE DICKSON** (H.T.).—Large, velvety crimson, veined deeper crimson. (F.)
- GISELE ALDAY** (H.T.).—Carmine red, opening to pink; free-flowering; decorative.
- GLOAMING** (H.T.).—Large buds on long stems, opening to semi-double flowers of soft pink, heavily laden with salmon and amber. (F.)
- GOLDEN DAWN** (H.T.).—Sunflower yellow, flushed with deep old rose; growth is good; very nice variety. (F.)
- GOLDEN OPHELIA** (H.T.).—Golden yellow; spiral shaped blooms of perfect form.
- GOLDEN EMBLEM** (Per.).—Beautiful golden blooms, with buds tinged red; unfortunately good growth cannot be assured.
- GOLDEN STATE** (H.T., 1939).—Golden yellow veined carmine on reverse of petals; full, good form. (F.) 2/6 each.
- GORGEOUS** (H.T.).—Orange yellow, veined orange copper; large and double, with strong growth.
- GWENDOLINE COLLINS** (H.T.) (Alister Clark).—An extra fine carmine Rose, with large petals and well shaped bud; refined, beautiful and constant.
- HADLEY** (H.T.).—Rich crimson red of lovely form; vigorous and free flowering. (F.)
- HEINRICH WENDLAND** (H.T.).—Golden yellow on outside, with rich nasturtium red on inner face of petals; large and attractive. A splendid variety. (F.)
- IMPERIAL POTENTATE** (H.T.).—Dark rose pink; fine large bloom, with vigorous growth and pleasing foliage. (F.)
- IRISH FIREFLAME** (H.T.).—Single; deep maddery orange, splashed crimson.
- ISOBEL** (H.T.).—Single; coppery red, with centre yellow.
- JOANNA HILL** (H.T.).—Sulphur yellow, slightly pink flush; nice form.
- JOHN C. M. MENSING** (H.T.).—Deep bright rose; sport from Ophelia.
- JOHN CRONIN** (H.T.).—Deep rose pink; nicely formed, on long stems; growth good. (F.)
- JOYOUS CAVALIER** (H.T.).—Light crimson flowers, semi-double, of nice shape and bud form; free flowering and vigorous.
- K.A. VICTORIA** (H.T.).—Large creamy white variety, well known amongst Rose growers. (F.)
- LADY BARNABY** (H.T.).—A beautiful clear pink of good form; free-flowering and good growth. (F.)

LADY FORTEVIOT (Per.).—Golden yellow to ruddy apricot. (F.)

LADY GREENHALL (H.T.).—Cream, suffused pink; nicely shaped bloom. (F.)

LADY HILLINGDON (H.T.).—Orange yellow, with long buds very pretty and distinct. (F.)

LADY HUNTINGFIELD (H.T.) (Alister Clark).—A very fine Rose; a decorative golden yellow, sometimes slightly tinged with pale pinky salmon; a grand grower and very free flowerer.

LA PARISIENNE (H.T.) (1938).—A decorative of most pleasing colour; flaming coral buds opening to nice bloom, produced freely on clean stems with shiny foliage. 1/9 each.

LEADING LADY (H.T.).—Clear flesh pink, flushed with faint rose.

LLEIDA (H.T.).—Coppery red, inside golden yellow reverse; semi-double. (F.)

LORRAINE LEE (Hyb. Gig.).—So well known has this popular variety become that it scarcely needs description. It is unique in its free, winter flowering propensities. Rich rose pink petals that have a yellow base, formed into clean, attractive shape that pleases. (F.)

LUBRA (H.T.) (Fitzhardinge).—This double crimson Rose with rich fragrance has all the qualities that make it highly desirable. 1/9 each.

MAB GRIMWADE (H.T.). (Alister Clark).—Rich orange, with shading difficult to describe; free flowering.

MDME. ABEL CHATENAY (H.T.).—Carmine pink, shaded salmon; popular Rose. (F.)

MDME. BUTTERFLY (H.T.).—Bright sport from Ophelia; often very similar. (F.)

MDME. COCHET COCHET (H.T.).—Long pointed buds, coppery pink, flushed orange. (F.)

MDME. NICHOLAS AUSSEL (Per.).—Salmon, tinged coppery orange. (F.)

MDME. EDOUARD HERRIOT (Per.).—Coral red, shaded prawn and yellow.

MDME. PIERRE S. DU PONT (H.T.).—Intense yellow, shaded ochre; long buds. (F.)

MDME. SEGOND WEBER (H.T.).—Rosy salmon; large blooms; very nice.

MALAR ROS (H.T.).—Deep crimson; nice form; upright growth. (E.F.)

MARGARET McGREDY (H.T.).—Orange scarlet; large and full.

MARJORIE PALMER (H.T.).—Bright rosy pink, very double, very free-flowering; bush growth with glossy foliage. (F.)

MARY HART (H.T.).—Glistening crimson scarlet; sport from Talisman. Very beautiful variety that grows and flowers freely. (F.)

MARY GUTHRIE (H.T.).—A most beautiful and free flowering single Rose, with a distinct shade of pink, with a slight heliotrope shading.

McGREDY'S IVORY (H.T.).—Creamy white, light yellow base. (F.)

McGREDY'S TRIUMPH (H.T.).—Geranium red, flushed orange, deepening to rich orange base; large and most striking appearance. (F.)

McGREDY'S SCARLET (H.T.).—Rich scarlet, orange base.

McGREDY'S YELLOW (H.T.).—Yellow, opening into large, well-formed blooms of a distinct lemon-yellow shade. (F.)

MATADOR (H.T.).—Etoile de Holland type, with more petals; an excellent Rose. The colouring is slightly darker at times than Etoile de Holland. (F.)

- MAX. KRAUSE** (H.T.).—Deep orange, varying to lighter tones; a very fine and large bloom that pleases. (F.)
- MEV. G. A. VAN ROSSEM** (H.T.).—Orange and apricot on a dark yellow ground; reverse bronze; decorative. (F.)
- MOLLY BLIGH** (H.T.).—Deep maddery pink, zoned orange.
- MRS. AARON WARD** (H.T.).—Indian yellow; buds produced freely; decorative.
- MRS. A. R. WADDELL** (H.T.).—Decorative; reddish salmon; very free flowering.
- MRS. A. R. BARRACLOUGH** (Per.).—Crimson pink, yellow base.
- MRS. DAVID McKEE** (H.T.).—A beautiful creamy yellow, of nice form; one of the best of its colour class.
- MRS. DUNLOP BEST** (H.T.).—Reddish apricot, with coppery base; good grower and free flowerer.
- MRS. BRYCE ALLAN** (H.T.).—Carmine rose of splendid form. (E.F.)
- MRS. GEORGE GEARY** (H.T.).—Deep pink, varying sometimes towards bright red; nice form.
- MRS. HERBERT STEVENS** (T.).—White; large, long and beautifully pointed flowers, borne freely on nice stems for cutting.
- MRS. JOHN LAING** (H.P.).—Light silvery rose. One of the old Roses and very nice. (F.)
- MRS. HENRY MORSE** (H.T.).—Bright rose, washed vermilion; perfect shape and substance. (F.)
- MRS. HENRY WINNET** (H.T.).—Red Rose of full form; exhibition standard. (F.)
- MRS. RUSSELL GRIMWADE** (Hyb. Gig.) (R. Grimwade).—A sport improvement of Lorraine Lee, of an even rich fuchsia pink. Blooms freely throughout the year, but shows its best colour in late autumn and winter. Strong, healthy grower, possessing all the attributes of its popular parent whilst keeping its colour better. (F.) 1/9 each, 18/- per doz.
- MRS. SAM McGREDY** (H.T.).—Scarlet orange, flushed gold and salmon. This is a decorative Rose, of great beauty when at its best. It is not always hardy. (F.)
- NELLIE PARKER** (H.T.).—Pale, creamy white, slightly flushed blush at tips of petals.
- NIGRETTE** (H.T.).—Small perfectly shaped double flowers of blackish crimson. When seen at its best it is quite unique and pleasing. It does not, however, retain consistency in perfection. (F.)
- OLIVER MEE** (H.T.).—Deep salmon pink, flushed light fawn. (F.)
- ORANGE GLORY** (H.T.) (1938).—Decorative; orange to coppery pink; very attractive. 1/9 each.
- OPHELIA** (H.T.).—Light salmon, flesh-shaded Rose; perfect form. (F.)
- PINK DAWN** (H.T.).—Fine, large, nicely shaped bloom produced on long, strong stems; rich pink. (F.)
- PRESIDENT HERBERT HOOVER** (H.T.).—A beautiful decorative variety with long stems; outside of petals claret red, flushed crimson; inner petals deep salmon flesh, with splashes of apricot; vigorous grower; slightly spicy fragrance.
- QUEEN ASTRID** (H.T.).—Persian yellow, opening to reddish apricot and bronze; decorative. (F.)
- QUEENSLAND BEAUTY** (H.T.).—A pink sport of Golden Dawn. It is a nice variety and will become better known. (F.)
- R. G. LEVEQUE** (H.T.).—Clear rose pink blooms of refined shape. (F.)

- RADIANCE** (H.T.).—Carmine pink, opening to nice clean blooms, with lighter tints on reverse of petals. (F.)
- RAPTURE** (H.T.).—One of the lovely and distinct sports of Ophelia; bright apricot, coral pink and rose. (E.F.)
- RED LETTER DAY** (H.T.).—Semi-double; scarlet crimson; free flowering.
- RED RADIANCE** (H.T.).—Brilliant cerise red; sport of Radiance. (F.)
- REV. F. PAGE ROBERTS** (H.T.).—Rich yellow, with buff markings; large, perfectly formed blooms. (E.F.)
- ROSE BERKLEY** (H.T.).—Deep salmon pink, suffused orange at base.
- ROSE D'AMOUR** (Per.).—Decorative; attractive colour, capucine red on inside of petals and old gold on the outside.
- ROSE MARIE** (H.T.).—Rose pink; free flowering; nicely formed. (F.)
- ROMANCE** (H.T.).—Golden yellow; large blooms. (F.)
- ROUGE MALLERIN** (H.T.).—Brilliant red; nicely formed. (F.)
- RUBY MANWARING** (H.T.).—Sport of Betty Uprichard; darker in colour, with very fine red stripings. (F.)
- SALLIE LEWIS** (H.T.).—Cadmium yellow, long pointed bud; free flowering; growth and foliage good. (F.)
- SAM MCGREDY** (H.T.).—Honey yellow, semi-double, large blooms. (F.)
- SHEILA BELLAIR** (H.T.) (Alister Clark).—Quite a new colouring in a most fascinating salmon pink shade. The blooms are continuously produced on a compact bush and are highly decorative and distinct.
- SHOT SILK** (H.T.).—Cerise overshot salmon, flushed rose on a yellow base; glossy green foliage. One of our best and most popular garden Roses. (F.)
- SIGNORA P. PURICELLI** (H.T.).—Brownish orange bud, opening to a mixture of yellow and salmon; quite a distinct colour. (F.)
- SIR HENRY SEAGRAVE** (H.T.).—Primrose yellow, with a chrome base; large and well-formed flower. (F.)
- SILVER JUBILEE** (H.T.) (1938).—Large full flowers; light golden yellow, with a chrome base, shaded with rose; colour varies; capable of producing high exhibition form. Price 1/9 each.
- SOPHIE MACKINNON** (H.T.) (Alister Clark).—A really fine, full red Rose of good shape and carriage. The plant is healthy, vigorous and constant, and a fine addition to the red section.
- SOUV. DE GEORGES PERNET** (H.T.).—Orient red shaded yellow; very large blooms.
- SOUV. DE STELLA GREY** (T.).—Deep orange, splashed apricot; decorative.
- SUNLIT** (H.T.) (Alister Clark).—A most striking and delightful salmon pink variety; free blooming and constant. (F.)
- SUNNY SOUTH** (H.T.).—Pink, flushed carmine, yellow at base of petals; strong, disease-proof growth; popular variety.
- SUNBURST** (H.T.).—Orange yellow, deeper towards centre; nice shape.
- TALISMAN** (H.T.).—Scarlet, pink, copper and gold in various shadings. A delightful decorative, with upright growth and most free flowering propensities. (F.)
- TEXAS CENTENNIAL** (H.T.).—A sport of President Herbert Hoover, with much deeper colouring.
- THE RAJAH** (H.T.) (Alister Clark).—A fine, deep red Rose, free and constant; especially good in midsummer and autumn. The bush is strong and healthy and thoroughly proved.

- THE INDIAN** (H.T.) (Alister Clark).—Free-flowering, unusually dark red, with petals of good texture carried on strong stems. 1/9 each.
- UNA WALLACE** (H.T.).—Soft cherry rose; nicely formed flower.
- VAN ROSSEM'S JUBILEE** (Per.).—Bright carmine lake, flushed pink; glossy foliage. 1/9 each.
- VIKTORIA ADELHEID** (H.T.).—Golden yellow, capucine red, with many shadings. (F.)
- VILLE DE PARIS** (H.T.).—Clear sunflower yellow, deeper colour in centre. Flowers produced on long stems, with glossy green foliage; an excellent variety.
- WARAWEE** (H.T.) (Mrs. H. C. Fitzhardinge).—Silvery pink, slightly tinged salmon; large and full; growth strong.
- WHITE ENSIGN** (H.T.).—White, flushed delicate cream; perfect flowers opening in a camelia-like formation. (F.)
- WILLIAM KORDES** (H.T.).—Capucine red on a yellow ground; large and full. (F.)
- WILLIAM MOORE** (H.T.).—Carmine pink, shading to a deeper pink as the bloom develops; nicely shaped. (F.)
- WILLIAM ORR** (H.T.).—Brilliant deep velvety crimson; fine petals and good form; strong growth. (F.)
- YORK and LANCASTER** (Damask).—Pale rose, striped white. (F.)

Moss Roses, Species, and Hybrid Species.

1/9 each; 18/- per dozen.

- CAPT. BASROGER** (Moss).—Crimson; very double.
- CRESTED MOSS** (Moss).—Deep pink; crested sepals.
- WHITE BATH** (Moss).—White.
- ZENOBI**A (Moss).—Pink.
- PINK GROOTENDORST** (Hyb. Rugosa).—Pleasing, heavy leathery foliage on strong shoots that are always terminated in a spray of pure, clear pink serrated edged flowers; shrub habit.
- ROSA BRUNONII**.—Strong climber, producing large sprays of single, pure white flowers in the spring.
- ROSA HUGONIS**.—Native of China, with graceful fern-like foliage; single, sulphur yellow flowers, produced in great masses very early in the spring; strong climber.
- ROSA LUTEA**.—Deep, shining, pure, buttercup yellow flowers, single and produced freely in the spring; pillar rose.
- ROSA MOYESII**.—Chinese species; fern-like foliage; rich chocolate crimson, single, medium sized flowers; spring flowering climber.
- SINICA ANEMONE**.—Single; silvery pink, shaded with rose; a strong climber.
- SINICA ALBA** (American Species).—Large, pure white, single flowers and bright shining foliage; strong climber.
- WILLMOTTIAE V. MOYESII** (Hyb.).—An extra strong climber, with a darker shade of chocolate crimson than Moyesii; slender fern-like foliage.

Polyantha Roses

Price of Polyantha Roses, except where otherwise quoted:—1/3 each;

12/- per doz.; £2/5/- for 50; £4 per 100.

Freight, packing and despatch charges are the same as that for Bush or Dwarf Roses. (See Page 2.)

BRITANNIA.—Crimson with white eye; single, large trusses.

BETTY PRIOR.—Dark carmine flowers, produced in clusters; keeps well when cut; strong grower. (F.)

BORDERER.—Double; pink, copper and amber.

CAMEO.—Very light golden salmon.

CECILE BRUNNER.—Well-known; light pink, perfect little flowers that are ideal for buttonhole and make-up work. Makes a very nice hedge and is extremely hardy.

CHATILLION.—Bright pink, semi-double flowers, very freely produced.

DAINTY.—Light pink, slightly salmon tinted.

DIANA.—Dark orange, flushed carmine, varying to apricot and pink shades as flower develops; unusual and beautiful.

DOLLY VARDEN.—Double; pink, large clusters.

ELLEN POULSEN.—This variety is outstanding, double pink flowers produced in large, attractive sprays. The plant is hardy, grows freely, and makes a fine low hedge for bordering on drive or surrounding large beds or similar situations.

ELSE POULSEN.—Bright deep pink; semi-single, upright growth.

FRANC LEDDY.—Light red, semi-double.

GLORIA MUNDI.—Bright glowing orange.

GLORIA DU MIDI.—Brighter and lighter than Gloria Mundi.

GOLDEN SALMON SUPERIOR.—Fiery golden salmon to yellow salmon.

HYPHOCYSTIS.—Double pink flower, produced in large sprays on strong growth.

IDEAL.—Dark crimson; double.

JACQUES CARROY.—Very double; carmine pink flowers, produced in clusters of 15 to 20; free flowering and compact growth.

KAREN POULSEN.—Strong, upright growth; single, brilliant scarlet flowers.

LADY READING.—A bright red sport of Ellen Poulsen; same growth and flowering characteristics, and can be used for same purposes as its parent.

MARINUS.—Dark red fairly double blooms in large clusters.

MARY CASSANT.—Light coral pink, semi-double, quite distinct.

MEV. VAN STRAATEN VAN NES.—Deep carmine, with waved petals, produced in clusters of 8 to 10; blooms freely. This Rose is called "Permanent Wave" in America.

ORANGE TRIUMPH, 1939.—Salmon red, semi-double, fine blooms carried in large clusters; growth healthy and free. Quite distinct and good. 2/- each.

PRIDE OF HURST.—Double; coral pink.

RUFUS.—Double; red; holds its colour well.

YVONNE RABIER.—Best white Polyantha; nicely formed, small, neat flowers borne in clusters.

ROSES RAISED BY MR. ALISTER CLARK and presented by him to the National Rose Society of Victoria.

The profits from the sales of these plants go to the funds of the Society.

LADY MANN (H.T.) (Alister Clark, 1940).—Health, freedom and beauty mark this Rose as a great gain. The foliage is beautiful, and the flowers which are produced in abundance practically throughout the year are rosy salmon. Possesses many of the qualities of Lorraine Lee, which is one of her parents. Making a large bush it should be an ideal hedge. Dwarf, 3/6 each.

MRS. E. M. GIBSON (H.T.) (Alister Clark, 1940).—A gloriously dark red seedling from "Countess of Stradbroke." Chosen by that delightful writer and great judge of Roses to bear her name. Dwarf, 3/6 each.

MRS. HAROLD ALSTON (H.T., Clg.) (Alister Clark, 1940).—A beautiful pink, healthy and free; addition to the pillar or climbing Roses. First Prize Melbourne Spring Show, 1939; refined and free. Dwarf, 3/6 each.

SIR ARTHUR STREETON (H.T.) (Alister Clark, 1940).—A lovely soft shade of pink, well-formed and free; thoroughly tried and recommended. Dwarf, 3/6 each.

Comtesse Vandal.

Heinrich Wendland.

Standard Roses

All worked on the Rosa Canina Stock.

List of varieties obtainable in Three-quarter Standards (approx. 30 inch), while many of the varieties can be obtained in Half Standards (approx. 24 inch).

Price of Three-quarter Standards: 3/- each; 33/- per doz.

Price of Half Standards: 2/6 each; 27/6 per doz.

Packing and despatch from Tyabb Railway Station to any Victorian Railway Station are as follow:—For one plant, 1/3; two or three plants, 1/8; four to eight plants, 2/3; nine to twelve plants, 2/9.

Apart from the above sizes in Standards, I have quite a number of good, sturdy, short Standards, ranging from 12 to 20 inch stems.

These will be sold at 2/- each, or 21/- per doz. Packing, freight and despatch charges will be the same as Three-quarter Standards.

Place your orders early.

Climbing Roses

Climbing Roses of all types can be used to great advantage in almost any garden. They should not be overlooked when planting time is at hand.

Abbreviations—(H.P.) Hybrid Perpetual, (H.T.) Hybrid Tea, (T.) Tea, (Per.) Pernetiana, (Wich.) Wichuraiana. (F.) indicates Fragrance, (E.F.) Exceptional Fragrance.

Price, except where otherwise quoted, 1/6 each; 15/- per doz; £2/10/- for 50; £4/10/- per 100. Packing charges and freight are the same as those for Bush or Dwarf Roses. (See Page 2.)

AMERICAN PILLAR (Wich.).—Clusters of single, rich pink flowers, with yellow stamens; very showy.

AMY JOHNSON (H.T.).—Vigorous grower; flowers a nice shade of pink; of good form. (F.)

BANKSIA ALBA.—Similar to Banksia Lutea, except that the flowers are white and are also scented.

BANKSIA.—The well-known yellow Banksia that blooms in clusters of small golden yellow flowers.

BLACK BOY (H.T.).—Dark crimson; very free flowering; hardy grower; varies its colour at times to light red. A variety that has gained great popularity. (F.)

BLUSH RAMBLER (Wich.).—Blush pink rambler with very double flowers produced in large clusters.

BLOOMFIELD COURAGE (Wich.).—Bright crimson single flowers produced in large clusters. The flowers retain their bright appearance until the petals drop, thus giving the clusters at all times a fresh appearance.

BONFIRE (Wich.).—Dazzling scarlet double flowers very freely produced.

CHERUB (Hyb. Wich.).—Strong climber, with nice foliage and sprays of well-formed salmon pink flowers. It blooms more freely than most of this class.

CICELY LASCELLES (H.T.) (Alister Clark).—A really beautiful pillar Rose; refined, free and most decorative; salmon pink.

CICELY O'RORKE (Alister Clark).—A beautiful pillar Rose; vigorous and constant; very decorative and free. Well tested and sure to please. Pink.

CHAPLIN'S PINK (Hyb. Wich.).—Large, single pink flowers in small clusters.

CLB. CHATEAU DE CLOS VOUGEOT (H.T.).—Dark velvety crimson, shaded with fiery red; a beautiful decorative. (E.F.)

CLB. COLUMBIA (H.T.).—Rose pink. (F.)

CLB. DAILY MAIL SCENTED (H.T.).—Rich velvety red; free flowering and strong climber. One of the best. (F.)

CLB. DAME EDITH HELEN (H.T.).—Strong climber of this glowing pink Rose. (E.F.)

CLB. ETOILE DE HOLLAND (H.T.).—Dark reddish crimson; strong grower; blooms freely. A lovely Rose. (E.F.)

CLB. FONTANELLE (H.T.).—Nice addition to the yellow climbers; beautiful large flowers of perfect form. (F.)

CLB. FRAU KARL DRUSCHKI (H.P.).—Snow-white large blooms; strong growth.

CLB. GENERAL McARTHUR (H.T.).—Scarlet full flowers; vigorous. (F.)

CLB. GOLDEN DAWN (H.T.).—Strong climber from the well-known sunflower yellow, with buds often tipped red; rose. (F.)

- CLB. GOLDEN EMBLEM** (Per.).—Climbing form of the well-known variety.
- CLB. GOLDEN OPHELIA** (H.T.).—Free flowering golden yellow; perfect spiral form; medium sized flowers. Tea scent.
- CLB. LADY HILLINGDON** (T.).—Strong climber, with long cadmium yellow buds freely produced.
- CLB. LADY SYLVIA** (H.T.).—This beautiful Rose, of the Ophelia type, is quite outstanding in producing so many perfect flowers that have the high colouring of Rapture. (E.F.)
- CLB. LORD CHARLEMONT** (H.T.).—Dark red to crimson, growth good.
- CLB. LORRAINE LEE** (Hyb. Gig.).—A reliable climbing form of the well-known and popular winter flowering variety; practically evergreen and producing its pink flowers freely. It is without doubt a climber distinct and delectable. (F.)
- CLB. LOS ANGELES** (Per.).—Salmon pink, shaded gold at base; growth strong.
- CLB. LYON ROSE** (Per.).—Shrimp pink, shaded salmon and yellow.
- CLB. MDME. ABEL CHATENAY** (H.T.).—Carmine pink, shaded salmon. (F.)
- CLB. MDME. BUTTERFLY** (H.T.).—Similar to Ophelia. (F.)
- CLB. MDME. SEGOND WEBER** (H.T.).—Strong grower, with rosy salmon large blooms.
- CLB. MEV. G. A. VAN ROSSEM** (Per.).—Dark orange and apricot on yellow; blooms of good size; growth free; very nice. (F.)
- CLB. MRS. AARON WARD** (H.T.).—Indian yellow; very pretty buds, produced in twos and threes; decorative.
- CLB. MRS. HENRY WINNET** (H.T.).—A fine dark red climber which was introduced last year into Australia. It should be a decided acquisition. The bloom itself is perfect. (F.) 1/9 each.
- CLB. MRS. HERBERT STEVENS** (T.).—A very vigorous sport of Mrs. Herbert Stevens; large, full, long pointed white flowers. Possibly our best white climbing Rose.
- CLB. OPHELIA** (H.T.).—A sport from this well-known variety, it climbs well and will always be welcomed. (F.)
- CLB. PRESIDENT HERBERT HOOVER** (H.T.).—A free flowering, vigorous climbing sport from the popular dwarf form; a mixture of gold, orange and red.
- CLB. PERLE DES JARDINES** (H.T.).—A deep yellow; large, well formed blooms; growth vigorous. (E.F.)
- CLB. RADIANCE** (H.T.).—Strong climber; carmine pink, shaded salmon. (F.)
- CLB. RED RADIANCE** (H.T.).—Cerise red; sport from Radiance; strong grower. (F.)
- CLB. SHOT SILK** (H.T.).—Beautiful strong climber; a sport from the popular dwarf variety, and same beautiful colours of its parent. One of our best climbers.
- CLB. SOUV. DE CLAUDIUS PERNET** (Per.).—Strong climber; sunflower yellow that does not fade.
- CLB. SOUV. DE GEORGES PERNET** (Per.).—Orient red and salmon shadings; large blooms.
- CLB. SOUV. DE MDME. BOULLET** (H.T.).—A deep cadmium yellow; long bud opening to nice bloom; free flowering.
- CLB. TALISMAN** (H.T.).—Copper, apricot and gold in various shadings. A climbing sport from the well-known variety. The flowers are generally better on the climber, which produces them very freely. (F.)
- CLB. VILLE DE PARIS**.—Strong climbing growth of that well known, pure deep golden sunflower yellow. 2/- each.

- CLB. W. E. CHAPLIN** (H.T.) (1937).—Dark crimson; nicely shaped blooms. (F.) 1/9.
- CLOTH OF GOLD** (Noisette).—Strong climber; clear yellow; vigorous. (F.)
- COUNTESS OF STRADBROKE** (H.T.).—Rich dark velvety crimson; strong climber. (F.)
- EMILY RHODES** (H.T.) (Alister Clark).—A very fine pink pillar Rose of good form and freedom; sweet and lasting; constant and well tested.
- EXCELSA** (Wich.).—Brilliant scarlet crimson; full; flowers produced in clusters.
- EASLEA'S GOLDEN RAMBLER** (Hyb. Wich.).—Golden flowers, semi-double, very freely produced; glossy green foliage. (F.)
- FRAGRANT PILLAR** (H.T.).—Long, pointed, cerise pink blooms which are very fragrant. A good grower and very free in bloom. (E.F.)
- GOLDEN CLIMBER** (Noisette).—Vigorous climber, with long, pointed, medium sized blooms. The buds are yellow, gold tipped with red.
- HIAWATHA** (Wich.).—Single, rich crimson, with white eye; flowers produced in large clusters.
- JESSIE CLARK** (Hyb. Gig.).—A very vigorous climber, which, in the spring is covered with the brightness of the mass of its large, single, clear, pink flowers.
- JULY GLORY** (Wich.).—Double rose pink blooms, produced in abundance in large clusters.
- KITTY KININMONTH** (H.T.).—Bright carmine rose, large flowers produced in abundance throughout the year; most decorative and showy.
- MARION MANIFOLD** (H.T.).—Rich velvety scarlet, shaded crimson; large and full, of good form; popular variety.
- NANCY HAYWARD** (Hyb. Gig.) (Alister Clark).—A very lovely pillar Rose of the most pleasing and unusual tint of rich pink. One of the most beautiful singles, not only in the spring, but also later on.
- NEW DAWN** (Wich.).—Flesh pink buds and double flowers; free blooming propensities.
- PAUL'S SCARLET CLIMBER** (Hyb. Wich.).—Vivid scarlet, shaded bright crimson; medium size; semi-double blooms; very bright.
- PRINCESS OF ORANGE** (Poly.).—Strong climber; vivid glowing orange double flowers, produced in large clusters. Remarkably showy and quite distinct.
- SOUV. DE LEONNE VIENNOT** (T.).—Silvery rose, shaded carmine, base of petals canary yellow; strong climber.
- W. H. DUNALLAN** (H.T.) (Alister Clark).—A pillar or climbing Rose that grows freely, with pleasing green foliage, and produces dazzling red flowers. A climber that merits place in any garden. 1/9 each.

NOTEWORTHY.

My Rose plants are distributed throughout Victoria and also to other States of the Commonwealth.

It is a constant source of delight to know, from the many complimentary letters that I have received from near and far, that clients are so pleased with the freshness and quality of plants as they arrive, and again, when planted in the garden, have given such delightful results.

SYRINGA (The Lilac).

Hardy and beautiful deciduous shrubs that grow to the height of from 5 to 8 feet. They produce large panicles of attractive flowers in the spring.

The varieties in this list are those that are the most beautiful and dependable. To see these subjects growing in the garden in full bloom in the spring is delightful.

Prices from 1/6 each.

CHAS. SARGENT.—Double; clear lilac.

CONDORCET.—Double; light blue.

CONGO.—Single; bright deep heliotrope red.

DR. MASTERS.—Double; deep lilac blue.

MISS E. WILMOTT.—Double pure white; the best white lilac.

NEGRO.—Single; dark purple.

OTHELLO.—Single, soft lilac.

PRESIDENT LOUBERT.—Double, purplish red.

REMUIR.—Single; dark carmine.

SOUV. DE LOUIS SPATH.—Single; dark purplish red.

WALDECK ROSSEAU.—Double; rosy lilac.

SOME ORNAMENTALS.

POPULUS DILITATA (Lombardy Poplar), from 1/6 up, according to height.

POPULUS YUNANENSIS (Long-leaved Poplar), from 2/- each.

POPULUS CANADENSIS AUREA (Golden Poplar), from 1/6 up.

ROWAN TREES. 2/6 each.

SALIX BABYLONICA (the Weeping Willow), from 1/6 to 2/6 each.

SALIX VITELLINA AUREA (the Golden Willow).—Rich golden branches with pale green leaves; grows 20 feet high and makes a beautiful tree. 1/6 to 2/6 each.

FLOWERING AND ORNAMENTAL TREES.

FLOWERING PEACH.—Double crimson. 1/6 each.

FLOWERING PEACH.—Double pink. 1/6 each.

FLOWERING PEACH.—Double White. 1/6 each.

PURPLE LEAFED PEACH.—Flowers small light pink, with deep purple foliage. 1/6 each.

FLOWERING ALMOND (Pollardi).—Flowers large single pink; strong grower and very hardy.

PRUNUS SINENSIS TRILOBA.—Dwarf flowering plum; grows about 4 feet, and in spring is a mass of bloom. 1/6 each.

PRUNUS BLEIRIANA.—Double flowering bright pink; a splendid variety that grows 10 feet high. 1/6 each.

PRUNUS NIGRI.—Pale blush flowers, with intensely rich purple foliage; very handsome. 1/6 each.

PYRUS-MALUS (Flowering Apples and Crabs).

ALDENHAMENSIS.—Rich bronzy foliage and semi-double wine-crimson flowers, followed by large purplish fruits. Delightful. 2/- each.

SCHEDERECKI.—Semi-double rose-coloured flowers in dense masses. Excellent. 2/- each.

GORGEOUS.—Dwarf growing Crab Apple of 5 feet, producing masses of most brilliant wax-like fruits that hang for months on the tree; brilliant. 2/6 each.

FRUIT TREES.

1/3 each, 12/- per doz.

APPLES.—Jonathan, Five Crown, Delicious, Granny Smith, Rome Beauty, Gravenstein and others.

APRICOTS.—Moor Park, Oullins Early, Campbellfields.

ALMONDS (Worked on Almond Stock).—Chellaston, Hatch's Nonpareil, Brades Jordan, White Nonpareil, Johnston's Prolific.

CHERRIES.—Twyford Bigarreau, Florence, St. Margaret, Rochport, Doncaster, Bing.

PEACHES.—Many varieties booked out for this season.

PLUMS.—Grand Duke, Green Gage, Angelina Burdett, President, Jefferson, Cole's Golden Gage, Damsons, Cherry Plums.

QUINCES.—Smyrna.

NECTARINES.—Goldmine, River's Early (P. Flood, see under).

NECTARINE "P. FLOOD" (new variety, worked from original tree), originating in the garden of Mr. P. Flood, of Brighton, and is quite outstanding. The tree is particularly hardy, healthy and strong grower. It bears freely heavy crops of large, luscious, and long-keeping fruit of handsome appearance. It ripens usually about the last week in January. Highly recommended for private gardens, while, commercially, it must rank as first and foremost. Price per tree, 2/6, and per dozen, 24/- f.o.r., Tyabb.

WALNUTS.—Black English, selected. 2/6 each.

In Conclusion.

I would like to thank all those who have placed their orders with me in the past, and trust I may merit a continuance of their esteemed support.

May, 1940.
